MEMORANDUM FOR THE RECORD

STAT

SUBJECT: Conversation with [redacted] 8 December 1955

STAT

1. [redacted] called me and indicated that he wished to request the establishment of a new position on the Project AQUATONE T.O., such position to be solely for the requirement generated in NPD for the handling of military documents and records on USAF personnel assigned to the Project.

STAT

2. We have already provided one such position on the existing T.O. (which was $\frac{1}{2}$ of [redacted] initial requirement) and this time he would like a Personnel Specialist Staff Sergeant with an AFSC of 73250. In the event that such a person is not available, he would settle for a 70250 Admin Clerk, presumably of equal or slightly lower grade.

STAT

3. I told him that while I was not in a position to pass upon the validity of such a request, I could understand how such a requirement could be generated. I believe that Col. Dahl is making this requirement in anticipation of the Project using in its entirety his existing HEDCOM SOP for the movement of Project personnel overseas. Mr. Bissell has indicated that he wished to hold up on this matter until he had a chance to discuss with [redacted] the entire package T.O. I set it forth herewith as an additional military personnel requirement to be given prompt consideration.
